

# NSRUDP Nauru Web Map — Data Notice & Terms of Use

Last updated: August 2026

---

## What this map shows

Water supply infrastructure and base mapping for Nauru, created under the NSRUDP. The water reticulation design was prepared by BICL under the NSRUDP. Layers include the designed reticulation network, fittings and valves, the old (abandoned) pipe system, cadastral parcels, district boundaries, 1 m contours, fuel lines, railway, and RO intake works.

**All water reticulation content on this map is design information only. It is not an “as constructed” record, and no part of it should be read as showing what was actually built.**

## Important limitations — read before relying on this data

- **Design data, not “as constructed”.** The reticulation network, fittings, and related layers show the *design* as drawn. Constructed works may differ in routing, depth, size, and detail. Do not treat this map as a record of what is in the ground.
- **Not for excavation.** Never rely on this map to locate underground services before digging. Conduct on-site service location.
- **Positional accuracy is not warranted.** Data was converted from CAD (UTM Zone 58S) to WGS84. Contours are simplified (~0.4 m tolerance) for web display.
- **Currency.** Source drawings date from the NSRUDP design period; contour data is labelled 2023. No commitment is made to keep this map current.
- **Attributes are partial.** Pipe diameters are shown only where recorded in the source drawings.

## Ownership and permitted use — project data

The infrastructure, cadastral, contour, and other vector layers are project data of the Government of Nauru.

This map is published for general information only. **Reuse of the underlying data is not permitted.** The data may not be downloaded, extracted, redistributed, or used in other products or publications.

## Third-party basemaps

- **Aerial imagery** is streamed from the Esri World Imagery service and is © Esri and its licensors (Maxar, Earthstar Geographics, and others). It is displayed under Esri’s terms of use; it is not part of this project’s data and may not be downloaded, copied, or redistributed from this map.
- **OpenStreetMap** basemap © OpenStreetMap contributors, available under the Open Database License (ODbL).

Attribution for both is displayed on the map and must not be removed.

## No liability

This map is provided “as is”, without warranty of any kind. The publishers accept no liability for any loss or damage arising from use of, or reliance on, this map or its data.
